HISTORY

For the folks at Dagger, paddling has always been a way of life. For nearly 20 years our kayaks have been used on rivers, lakes, oceans, and waterways around the world. From the very beginning, to this day our philosophy has been simple; make comfortable boats that perform well and exceed the paddler’s expectations.

But along this paddling timeline we have discovered even more than we would have imagined back in the early years. New technologies, better materials and advanced product design along with paddling “know how” have enabled us to push kayaking boundaries even further. Today’s Dagger boats are the highest performance, strongest and lightest ever, all made possible from years of hard work, river miles and a commitment to kayaking.

So as you hop into a Dagger Kayak it’s easy to see why we have a reputation for making the best boats. Our mission is the same as it was from day one; to design boats that you absolutely enjoy paddling and that allow you to experience the unrivaled joy of being on the water.

DAGGER SAFETY INITIATIVE

Let’s face it, paddling is fun. It doesn’t matter if you are on a class II day trip or a class V exploratory mission, being on the river makes you happy. But along with the fun comes responsibility. That’s why Dagger Kayaks is the first whitewater kayak company to offer up a series of FREE safety classes designed to help educate paddlers for emergency situations. Set in a classroom format, the Dagger Safety Initiative (DSI) is a one day dry land training class that will teach you the fundamentals of river awareness. While it is easy for anyone to go into a paddle shop and get all the gear and head to the river, it is our goal to give you the knowledge of “what to do” when your day on the river does not go as planned. From throw rope practice and scenarios to choosing the proper equipment, our class is designed to offer you basic safety knowledge and insight that will benefit you and your paddling partners. The DSI program is endorsed by American Whitewater and instructed by nationally recognized SWR instructor and Team Dagger safety man, Mike Mather. Stay tuned to www.teamdagger.com for dates and locations of upcoming DSI classes near you.
It is tough to describe the history and legacy that goes in to being on Team Dagger. Our Team has represented the purest form of whitewater paddlers. World Champions, World record holders and World travelers. But beyond the glory of a new waterfall record there is the same Team Dagger that teaches roll clinics, offers free beginner classes, donates time to charity or has started a paddling program to benefit those that might otherwise never get a chance to experience kayaking. Our Team not only pushes the sport to new levels but also enjoys giving back and encouraging others. Anna Levesque started ‘Girls at Play’ while Hobie helped create ‘Paddle with the Pros’ and was recently named along with Anna as an American Whitewater Athlete Ambassador. And then there is Brad Ludden and ‘First Descents’, a kayak camp for young adults living with cancer. Our Team knows it not just about the victories but about making contributions and getting people on the water. Dagger is proud to support the men and women of Team D and all they do for the sport of kayaking.

WHITEWATER KAYAKS

Often viewed as the more extreme side of paddling, whitewater kayaking offers something for everyone. For some it is the experience of paddling remote rivers. For others it’s a quick trip to your local play park. Regardless of your style, nothing beats a day floating on the river. And here at Dagger, we make the boats for all those adventures. River running, creeking or play boating, our boats are designed to be light, comfortable, dry, easy to roll, and above all, fun to paddle! Our Team of paddlers have been scouring the planet and testing these boats to their limits. When you paddle a Dagger boat, you know you are paddling the kayak that will allow you to reach your full potential.

AGENT 6.0:
Dynamic playboating for the smaller paddler. Get ready to paddle at the next level.

**KINGPIN 6.1:**
The platform by which all playboats are compared. A playful hull with slicy ends that will dominate waves and holes. Stability that affords awesome down river play.

**SPECs:**
- **Length:** 6'1"/ 185 cm
- **Weight:** 33 lbs. / 15 kg
- **Width:** 23.25" / 60 cm
- **Volume:** 44 gal / 166 L
- **Cockpit:** 34" x 19" / 85 cm x 47.5 cm
- **Deck Height:** 10.75" / 27.3 cm
- **Paddler Weight Range:** 90-140 lbs. / 41-64 kg

**KINGPIN 6.2:**
The boat that helped shape the revolution and one of our most popular ever. Designed for big moves as well as being paddler friendly.

**SPECs:**
- **Length:** 6'1" / 185 cm
- **Weight:** 34 lbs. / 15 kg
- **Width:** 28.75" / 73 cm
- **Volume:** 47 gal / 178 L
- **Deck Height:** 11.5" / 29.7 cm
- **Paddler Weight Range:** 100-180 lbs. / 45.3-81.6 kg

**FEATURES:**
- D – Bone Welded In Seat Track
- Foam Subframe
- Flipswitch Backband
- Precision Adjustable Thigh Braces
- Padded Foam Footbrace
- Tool-less Vector Seat Adjustment
- Multi Adjustable Contoured Hip Pads

**COLORs:**
- Red
- Orange
- Yellow
- Blue
- Sky
- Lime
- Flame

**KINGPIN 6.3:**
The freedom to do what you like in comfort and control. The strategically well placed volume offers river running performance while the planning hull still allows you to throw dynamic moves.

**SPECs:**
- **Length:** 6'5" / 195 cm
- **Weight:** 35 lbs. / 16 kg
- **Width:** 26" / 68 cm
- **Volume:** 56 gal / 212 L
- **Cockpit:** 34" x 19" / 85 cm x 47.5 cm
- **Deck Height:** 11.75" / 29.8 cm
- **Paddler Weight Range:** 110-230 lbs. / 50-104 kg
RX 6.7:
A perfect hybrid of play and river running. The hull screams speed while the volume says stability. Cartwheels, surfing, down-river control and all day comfort rolled into one stylish package.

**FEATURES:**
- D – Bone Welded In Seat Track
- Foam Subframe
- Flipswitch Backband
- Precision Adjustable Thigh Braces
- Padded Foam Footbrace
- Tool-less Vector Seat Adjustment
- Multi Adjustable Contoured Flip Pads

**COLORS:**
- Red
- Orange
- Yellow
- Flame

**SPECs:**
- Length: 6’ 7” / 197.5 cm
- Weight: 33 lbs / 15 kg
- Width: 25.5” / 64.8 cm
- Cockpit: 34.75” x 16” / 88.9 cm x 41.9 cm
- Volume: 52 gal / 196.8 L
- Paddler Weight Range: 120-195 lbs / 54.4 kg-88.5 kg

**SPECS:**
- Length: 6’ 8” / 200 cm
- Weight: 35 lbs / 16 kg
- Width: 26.5” / 67.3 cm
- Cockpit: 34.75” x 16” / 88.9 cm x 41.9 cm
- Volume: 58 gal / 209.5 L
- Paddler Weight Range: 150-225 lbs / 68.1 kg-102.2 kg

RX 6.9:
More volume to allow added comfort and forgiveness but the same playful hull. From those must make eddies and attainments, to dynamic play moves the RX does it all. A great travel boat and multi-tasker.

**FEATURES:**
- D – Bone Welded In Seat Track
- Foam Subframe
- Flipswitch Backband
- Precision Adjustable Thigh Braces
- Padded Foam Footbrace
- Tool-less Vector Seat Adjustment
- Multi Adjustable Contoured Flip Pads

*Note: All models are available in multiple colors.*
Long hauls and uncomfortable boats don’t go together. Kinda like ketchup and caviar. So we developed some of the most innovative outfitting ever conceived. It has no mechanical parts and no need for tools to adjust. Yeah, we’ve got your back. Or in this case, your butt. A molded-in seat lifts your legs and hugs your body while LiquiCell® provides a layer of cushion between your body and your kayak, reducing soreness and shear for those long days of paddling. In unbelievable comfort, efficiency and responsiveness is thinking. So leave the wrenches and screwdrivers at home. We stripped down and re-designed some performance elements that make for a lighter boat, but this rigid rail is fused to the hull and prevents hull deformation in all conditions. A more rigid hull = a better performing hull = many jealous friends.

Multi-Adjustable Hip Pads
2
New thermoformed thigh braces make for a lighter distance between the braces while maintaining that two inches of fore and aft adjustment. You’ve got performance and mastery of this critical contact point. ON SELECTED MODELS ONLY

Zone Comfort System
2
Inexpensive hip pads, a feature you’ll love you forever. Traditional hip pads are often hard to adjust, leave you feeling hot and restricted. Our Zone hip pads provide an intuitive and comfortable fit. To adjust, simply remove shims and add them in again. It’s lightweight and customizable. It’s also solid, impact resistant and provides great control, edge and security.

Inexpensive Grab Handles
Hey, we’d carry your boat from your car to the water if we could, but these ergonomic grab handles are the next best thing. Designed with soft contours so you can ease so all your trips to the water are comfortable and enjoyable. But for easy adjustability, you only need to adjust two of those points (which are completely toolless) to dial-in for the perfect fit.

Performance Thigh Braces
3
New thermoformed thigh braces provide an intuitive and toolless outfitting system. So leave the wrenches and screwdrivers at home. We stripped down and re-designed our performance edge that makes the new paddlers happy and keeps the river rats coming back for more. Off the line, these boats come with everything you need, ready to customize and dial-in just the way you like ‘em.

Wyatt Performance Fit System
1
This is the most comfortable, efficient and customizable outfitting system we’ve ever designed. Allowing paddlers the ability to change their connection to their kayak in an instant for a more comfortable and satisfying on-water experience. Get in your Zone. Paddle in it. Stay in it.

Performance Wedger
1
Like a bucket seat, it cradles (not pushes) your body and lifts from the center, then falls away to the sides. Balance and control are instantly improved. But for adjustability, you only need to adjust two of those points (which are completely toolless) to dial-in for the perfect fit. And just like that, your kayak becomes you. No more beach balls in the cockpit!! Developed by working closely with our friends at Immersion

Ergonomic Seat
Hey, we’ve got your back. Or in this case, your butt. A molded-in ergonomic seat with LiquiCell® Technology

Kayak Becomes You
No more beach balls in the cockpit!! Developed by working closely with our friends at Immersion

Water Rating
1
The Overthruster™ is an incredible addition of volume for maximizing powerful stem and crosswinds and crosscurrents can stink. So we designed a rudder that doesn’t. Our aluminum one is stiff, raise and drop it with butter-like smoothness. You like? Thought so.

A foam subframe means that you get great flotation and are paddling a strong, rigid kayak. And what reinforces that fact (and your boat) is the marriage between the subframe and that D-Bone.

Multiple backrest options: height and pitch can change on your whim, with fingertip ease. Ingenious thigh brace design produces infinite articulation and optimum comfort and mastery of this critical contact point.

On selected models only

D-Bone

Molded-in laminate seat with LiquiCell® Technology

5

Ease so all your trips to the water are comfortable and enjoyable. But for easy adjustability, you only need to adjust two of those points (which are completely toolless) to dial-in for the perfect fit.

TOURING KAYAKS

Our belief in "wherever there's water" extends to every aspect of kayaking. And for those that like to lead life off the beaten path, a touring boat is the perfect escape from the day to day doldrums. Expeditions, day trips, overnighters, or family paddling excursions, a touring boat is the paddling pick up we all want. Dagger's touring boats have a long standing heritage of performance and reputation for quality. The long sleek lines ensure a fast smooth glide across the water while still providing a stable platform that is user friendly and provides deck rigging and ample room for accessory mounts. The Euro X is the ultimate for multi day touring and expeditions, offering unmatched stability combined with smooth gliding and comfort. Features:

- Dual Density hatches that seal water tight
- Perfectly placed deck rigging
- Ample room for accessory mounts
- New Zone multi adjust outfitting with thermo-molded padding
- Euro X seat with enough space to store everything you could possibly need

FEATURES:

- Bow, Midship and Stern Bulkheads
- Third Day Storage Hatch
- Zone Multi Adjust Thigh Braces
- Thermo-Molded Foam Back Rest Pad
- Reflective Perimeter Safety Line
- Rudder Option for Directional Tracking
- GPS and Compass Mounting Locations
- Hammerhead Security Bar
- Liquicell® Technology Seat Padding

RECREATIONAL KAYAKS
Ever wanted to get back to the little coves on a nearby lake? Wished you had a stable boat that you and your family could enjoy together? Want a versatile kayak you can use for years? A recreational kayak is the answer, and for many reasons.

Stability:
A stable platform to not only learn in but to explore in. Great for fishing and outdoor adventure or giving a first timer out on the water. The ultimate in hybrid crossover kayaks. Stable, forgiving, and light with extra cockpit room. The cockpit supports the use of a spray skirt and the storage hatches seal tight and dry. Spring-loaded drop skeg helps improve your paddling with directional tracking.

Performance:
Features such as Dagger’s drop skeg technology ensure you stay on track and helps you paddle more efficiently. The small persons addition to the hybrid crossover kayak family. Its size may be small but its packed with features. A drop down skeg for directional tracking and adjustable foam padded outfitting. This stable, forgiving and confidence inspiring boat is equally at home on the rivers or the lakes. A drop down deck for directional tracking and added storage. The light weight manageable design is ideal for smaller adults and kids wanting to begin their whitewater adventures or looking for a maneuverable recreational kayak.

The cockpit in hybrid crossover kayak. Stable, forgiving and easy to maneuver. Your paddling is progressed rapidly.
